{{iframe: <iframe src=""></iframe>}}	Embed an iframe (e.g. Google Maps, online PDFs, etc.)

`$$your equation/mathematical symbol$$`

`$$E = mc^{2}$$`

`$$\chi^2_{n}=\sqrt{a+b}$$`

Insert LaTeX, e.g.

$E = mc^2$

$\chi_n^2 = \sqrt{a+b}$

Graph Visualisation

Command	Result
LEFT-MOUSE-CLICK on node	Open page/node
SHIFT + LEFT-MOUSE-CLICK on node	Open page/node in left side-bar
LEFT-MOUSE-CLICK + HOLD on node	Slowly zoom into a node
LEFT-MOUSE-CLICK + DRAG	Move Node
SCROLL-UP/DOWN	Zoom out/in

Restoring Athens from a backup

Athens automatically generates backups (`.bkp`) in the same folder. In order to restore any past version of your DB follow these steps:

1. Close Athens
2. Create a copy of your affected Athens folder (your backup)
3. Rename the file `index.transit` in your Athens folder
4. Choose a previous `.bkp` file in your Athens folder that seems to contain the content you hope to recover
5. Rename this `.bkp` to `index.transit`

[[Athens]] Cheat sheet

Based on 1.0.0-BETA.59

6. Restart Athens and chose the new `index.transit` file
7. Your database is recovered
